-OF THE-JANUARY 1, 1869.

Capital Stock \$1,000, Surplus 622,
Assets \$1,622,97
ASSETS. Market visitate owned by the Company \$205.5 on bond and morigage

To the Owners of Real Estate in Tenarional Bank stocks nessee, Mississippi, Alabama and Armada sh on hand and in bank PHE COMPANY KNOWN TO THE PUBash in agenta' hands and in cours of transmission..... restace and

> Salvages on fire and intend losses un-determined All other property of the Company ... LIABILITIES. cases unadjusted and not due... Subscribed and sworn to by D. R. SATTERLEE, President. WM. S. GOODELL, Pecretary.

THE COMPANY KNOWN TO THE FUBtic as the "Mississippi Vailey Navigation
Company of the South and West," is erganized
under a chatter from the State of Louisiana.
This charter anaborizes a capital stock of five
numbered thousand dollars, with the privilege
of extension to one mittion. That the public
may know the exact object of the Company,
the third article of the charter is given entire,
as follows:

"The object of this Company is to construct
or otherwise to procure and maintain one or
more steamboate, or other vessels, to run on
and navigate the Mississippi river, or its tributaries, for the purpose of carrying freight,
mails and passengers; to construct cooks,
warryes, buildings and such other constructions as may be necessary to the building and
repairing of vessels, and generally to exercise
such incidental powers and privileges as are
hereby or may be conferred on them for the
purposes aforesaid"

The Company propose, under the provisions
or this charter to construct a line of steamers
to run between the different ports on the Missussippi river and its tributaries. They will be
constructed upon the low-pressure principle;
they will carry less steam; they will make setter time, and be in all respects more sa e than
any description of boats ever placed upon our
waters. Divided into distinct compartments,
if disaster, whether by fire or smags, shall happen to one, the boat is not endangered. In
nesse of fire, apparatus for turning stess upon
it will be provided, and it is demonstrated that
steam is the most effective extinguisher of fire.
In case one compartment is rocken through by
contact with snags, and fils with water, the
others are not endangered, and the boat cannot sink, as pumps, provided for sitch an emergency, will be in instant operation. Safety to
passengers and reight is a great end, worthy
of the struggle of the people of the Mississippi
Valley.

Nearly three hundred thousand dollars in
money and work has already been subscribed STATE OF TENNESSEE, COMPTROLLER'S OFFICE, NASSVILLE, January 1, 1889. Nasaville, January 1, 1899.

I. G. W.
